This European Standard was approved by CENELEC on 2011-06-30. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

## Foreword

The text of document 31/921/FDIS, future edition 1 of IEC 60079-35-1, prepared by IEC TC 31, Equipment for explosive atmospheres, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as EN 60079-35-1 on 2011-06-30.

This European Standard supersedes EN 62013-1:2006.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN and CENELEC shall not be held responsible for identifying any or all such patent rights.

The following dates were fixed:

- |  |       |            |
|--|-------|------------|
| – latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement | (dop) | 2012-03-30 |
| – latest date by which the national standards conflicting with the EN have to be withdrawn   | (dow) | 2014-06-30 |

This European Standard has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association and covers essential requirements of EC Directive ATEX (94/9/EC). See Annex ZZ.

Annexes ZA, ZY and ZZ have been added by CENELEC.

---

## Endorsement notice

The text of the International Standard IEC 60079-35-1:2011 was approved by CENELEC as a European Standard without any modification.

## Annex ZY (informative)

### Significant changes between EN 60079-35-1:2011 and EN 62013-1: 2006

This European Standard supersedes EN 62013-1:2006.

The significant changes with respect to EN 62013-1:2006 are as listed below.

Significant Changes	Clause	Type		
		Minor and editorial changes	Extension	Major technical changes
This first edition cancels and replaces EN 62013-1:2006, and constitutes a full technical revision.			X	
The requirements of EN 60079-0 now apply to this standard with the exceptions of the exclusions listed in Table 1. Provision has also been provided for a means to assess caplights to EPL Ma.	Scope		X	
The standard has been re-written to be more in-line with other EN 60079 series standards.		X		
Table 1 introduced to identify the clauses of EN 60079-0 which are excluded.	Table 1		X	
The requirements for caplights conforming to EPL Mb defined.	4.1	X		
The additional requirements for caplights conforming to EPL Ma defined.	4.2		X	
Thermal protection of electronic components added.	5.10		X	
Additional requirements applied to cells and batteries.	6.1		X	
Cells and batteries are now restricted to those meeting the requirements of EN 60079-0.	7		X	
Type verification testing, where applicable refers back to the requirements in EN 60079-0	8	X		

**NOTE: The technical changes referred include the significant technical changes from the EN revised but is not an exhaustive list of all modifications from EN 62013-1:2006.**

**Explanations:**

**A) Definitions**

<b>Minor and editorial changes</b>	clarification decrease of technical requirements minor technical change editorial corrections
------------------------------------	--

Changes in a standard classified as 'Minor and editorial changes' refer to changes regarding the previous standard, which modify requirements in an editorial or a minor technical way. Also changes of the wording to clarify technical requirements without any technical change are classified as 'Minor and editorial changes'.

A reduction in level of existing requirement is also classified as 'Minor and editorial changes'

<b>Extension</b>	addition of technical options
------------------	-------------------------------

Changes in a standard classified as 'extension' refers to changes regarding the previous standard, which add new or modify existing technical requirements, in a way that new options are given, but without increasing requirements for equipment that was fully compliant with the previous standard. Therefore these 'extensions' will not have to be considered for products in conformity with the preceding edition.

<b>Major technical change</b>	addition of technical requirements increase of technical requirements
-------------------------------	--

Changes in a standard classified as 'Major technical change' refer to changes regarding the previous standard, which add new or increase the level of existing technical requirements, in a way that a product in conformity with the preceding standard will not always be able to fulfil the requirements given in the standard. 'Major technical changes' have to be considered for products in conformity with the preceding edition. For every change classified as 'Major Technical Change' additional information is provided in clause B) of the Annex ZY.

Note: These changes represent current technological knowledge<sup>1</sup>. However, these changes should not normally have an influence on equipment already placed on the market.

**B) Information about the background of 'Major Technical Changes'**

None.

**Instructions:**

The manufacturer or his authorised representative in the Community is to draw up the instructions for use in the required Community languages.

**Marking:**

The marking in this standard is to be supplemented/modified by the marking according to Directive 94/9/EC. Examples are given below.

**European marking examples**

<b>Directive part</b>	<b>Standard part</b>	<b>Equipment example</b>
E I M2	Ex I Mb EN 60079-35-1 (0°C ≤ Ta ≤ +40°C)	Caplight suitable for EPL Mb
E I M1	Ex ia I Ma EN 60079-35-1 (-10°C ≤ Ta ≤ +40°C)	Caplight suitable for EPL Ma

<sup>1</sup> see also ATEX Guide 10.3 and Annex ZZ

## **Annex ZZ** (informative)

### **Coverage of essential requirements of the directive 94/9/EC**

This European Standard has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association and within its scope the standard covers only the following essential requirements and out of those given in Annex II of the Directive 94/9/EC:

- ER 1.0.1 to ER 1.0.6;
- ER 1.1.1 to ER 1.1.3;
- ER 1.2.1 to ER 1.2.9;
- ER 1.3.1 to ER 1.3.5;
- ER 1.4.1 to ER 1.4.2;
- ER 2.0.1.1 to ER 2.0.1.4;
- ER 2.0.2.1 to ER 2.0.2.3;

Compliance with this standard provides one means of conformity with the specified essential requirements of the Directive concerned.

**WARNING:** Other requirements and other EC Directives may be applicable to the products falling within the scope of this standard.

### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

- Catalogue of IEC publications: [www.iec.ch/searchpub](http://www.iec.ch/searchpub)

The IEC on-line Catalogue enables you to search by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, withdrawn and replaced publications.

- IEC Just Published: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Stay up to date on all new IEC publications. Just Published details twice a month all new publications released. Available on-line and also by email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary of electronic and electrical terms containing more than 20 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary online.

- Customer Service Centre: [www.iec.ch/webstore/custserv](http://www.iec.ch/webstore/custserv)

### A propos de la CEI

La Commission Electrotechnique Internationale (CEI) est la première organisation mondiale qui élabore et publie des normes internationales pour tout ce qui a trait à l'électricité, à l'électronique et aux technologies apparentées.

### A propos des publications CEI

Le contenu technique des publications de la CEI est constamment revu. Veuillez vous assurer que vous possédez l'édition la plus récente, un corrigendum ou amendement peut avoir été publié.

- Catalogue des publications de la CEI: [www.iec.ch/searchpub/cur\\_fut-f.htm](http://www.iec.ch/searchpub/cur_fut-f.htm)

Le Catalogue en-ligne de la CEI vous permet d'effectuer des recherches en utilisant différents critères (numéro de référence, texte, comité d'études,...). Il donne aussi des informations sur les projets et les publications retirées ou remplacées.

- Just Published CEI: [www.iec.ch/online\\_news/justpub](http://www.iec.ch/online_news/justpub)

Restez informé sur les nouvelles publications de la CEI. Just Published détaille deux fois par mois les nouvelles publications parues. Disponible en-ligne et aussi par email.

- Electropedia: [www.electropedia.org](http://www.electropedia.org)

Le premier dictionnaire en ligne au monde de termes électroniques et électriques. Il contient plus de 20 000 termes et définitions en anglais et en français, ainsi que les termes équivalents dans les langues additionnelles. Egalement appelé Vocabulaire Electrotechnique International en ligne.
