English Version

Chimneys - Clay/ceramic flue liners - Part 2: Flue liners operating under wet conditions - Requirements and test methods

Conduits de fumée - Conduits intérieurs en terre cuite/céramique - Partie 2: Exigences et méthodes d'essai pour utilisation en conditions humides

Abgasanlagen - Keramik-Innenrohre - Teil 2: Innenrohre für den Nassbetrieb - Anforderungen und Prüfungen

This European Standard was approved by CEN on 16 December 2011.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Foreword.....5

1 Scope6

2 Normative references6

3 Terms and definitions6

4 Flue liners and openings8

4.1 Flue liner cross-sections8

4.2 Inspection openings and chimney junctions.....9

5 Types of flue liner 10

6 Materials 10

7 Tolerances on dimensions 11

7.1 Transverse dimension..... 11

7.2 Height..... 11

7.3 Angle of curvature 11

7.4 Straightness 11

7.5 Squareness of ends..... 11

7.6 Deviation from shape of cross section 11

7.7 Geometry of joints 11

8 Proof load 11

8.1 Straight flue liners 11

8.2 Curved flue liners..... 11

8.3 Minimum load for inspection opening sections 12

9 Gas tightness/leakage, thermal shock resistance and soot fire resistance for straight flue liners 12

9.1 Initial test 12

9.2 Final gas tightness after testing..... 13

9.2.1 General..... 13

9.2.2 Final gas tightness after sootfire testing 13

9.2.3 Final gas tightness after thermal shock testing 13

10 Durability 14

10.1 Corrosion resistance 14

10.2 Freeze/Thaw resistance 14

11 Water absorption and bulk density 14

11.1 General..... 14

11.2 Water absorption 14

11.3 Bulk density..... 14

12 Abrasion resistance 14

13 Condensate resistance and flow resistance 14

13.1 Condensate resistance 14

13.2 Flow resistance 15

14 Thermal resistance 15

15 Evaluation of conformity..... 15

15.1 General..... 15

15.2 Initial type testing 15

15.3 Further type tests..... 15

16.10.4	Expression of results	26
16.11	Bulk density	26
16.11.1	Test specimen.....	26
16.11.2	Test equipment.....	27
16.11.3	Test procedure.....	27
16.11.4	Expression of results	27
16.12	Abrasion resistance	27
16.12.1	Test flue.....	27
16.12.2	Test equipment.....	27
16.12.3	Test procedure.....	28
16.12.4	Expression of results	28
16.13	Test method for the determination of water and vapour flow (indirect method).....	29
16.13.1	Test installation	29
16.13.2	Test sample.....	30
16.13.3	Position of measuring points and records	30
16.13.4	Test procedure.....	31
16.13.5	Results.....	32
16.13.6	Measuring equipment — Composition, measuring range, uncertainty.....	32
16.13.7	Test rig.....	33
17	Designation	34
18	Marking.....	35
Annex A	(normative) Sampling procedures for an AQL of 10 % and inspection level S2	36
A.1	Acceptability determination	36
A.2	Normal inspection	36
A.3	Normal to reduced inspection.....	37
A.4	Reduced to normal inspection.....	38
A.5	Tightened inspection	38
A.6	Tightened to normal inspection.....	38
A.7	Discontinuation of inspection.....	39

Annex B (normative) Thermal resistance 40
B.1 Method 1: simplified calculation for flue liners without cavities 40
B.2 Method 2: thermal resistance of flue liners with or without cavities 40
B.3 Method Approximate thermal resistance values 45

Annex C (normative) Measurement of the coefficient of friction of chimneys 47

**Annex ZA (informative) Clauses of this European Standard addressing the provisions of the EU
Construction Products Directive 49**
ZA.1 Scope and relevant characteristics 49
ZA.2 Procedure of attestation of conformity of clay/ceramic flue liners and fittings 50
ZA.3 CE Marking and labelling 52

Foreword

This document (EN 1457-2:2012) has been prepared by Technical Committee CEN/TC 166 “Chimneys”, the secretariat of which is held by ASI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by July 2012, and conflicting national standards shall be withdrawn at the latest by July 2012.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 1457:1999.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative Annex ZA, which is an integral part of this document.

EN 1457 is made of two parts:

- EN 1457-1, *Chimney — Clay/ceramic flue liners — Part 1: Flue liners operating under dry conditions — Requirements and test methods*;
- EN 1457-2, *Chimney — Clay/ceramic flue liners — Part 2: Flue liners operating under wet conditions — Requirements and test methods*.

The main changes with respect to the previous edition are:

EN 1457 has been split in 2 parts: EN 1457-2 is a product standard for clay/ceramic flue liners operating under wet conditions.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland Turkey and the United Kingdom.
