## EUROPEAN STANDARD NORME EUROPÉENNE EUROPÄISCHE NORM

**EN 1709** 

October 2004

ICS 45.100

#### English version

# Safety requirements for cableway installations designed to carry persons - Precommissioning inspection, maintenance, operational inspection and checks

Prescriptions de sécurité pour les installations à câbles transportant des personnes - Examen probatoire, maintenance, contrôles en exploitatation Sicherheitsanforderungen für Seilbahnen für den Personenverkehr - Erprobung, Instandhaltung, Betriebskontrollen

This European Standard was approved by CEN on 23 August 2004.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Annex A	ZA (Informative) Relationship between this European Standard and the Essential	
	Requirements of EU Directive 2000/9/EC relating to cableway installations designed to	
	carry persons	21

## **Foreword**

This document (EN 1709:2004) has been prepared by Technical Committee CEN/TC 242 "Safety requirements for passenger transportation by rope", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 2005, and conflicting national standards shall be withdrawn at the latest by April 2005.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directives.

For relationship with EU Directives, see informative Annex ZA, which is an integral part of this document.

This document forms part of the standards programme approved by the CEN Technical Board on safety requirements for cableway installations designed to carry persons. This programme comprises the following standards:

- 1) Safety requirements for cableway installations designed to carry persons Terminology.
- 2) Safety requirements for cableway installations designed to carry persons General requirements.
- 3) Safety requirements for cableway installations designed to carry persons Calculations.
- Safety requirements for cableway installations designed to carry persons Ropes.
- 5) Safety requirements for cableway installations designed to carry persons Tensioning devices.
- Safety requirements for cableway installations designed to carry persons Drive systems and other mechanical devices.
- 7) Safety requirements for cableway installations designed to carry persons Carriers.
- 8) Safety requirements for cableway installations designed to carry persons Electrical equipment other than for drive systems.
- 9) Safety requirements for cableway installations designed to carry persons Civil engineering works.
- 10) Safety requirements for cableway installations designed to carry persons Pre-commissioning inspection, maintenance and operational inspection and checks.
- 11) Safety requirements for cableway installations designed to carry persons Recovery and evacuation.
- 12) Safety requirements for cableway installations designed to carry persons Operation.
- 13) Safety requirements for cableway installations designed to carry persons Quality assurance.

Together these form a series of standards regarding design, production, maintenance and operation of all installations for cableway installations designed to carry persons.

In respect of ski-tows, the drafting of this document has been guided by the works of the International Organisation for transportation by rope (OITAF).

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.
