EUROPEAN STANDARD
NORME EUROPÉENNE
EUROPÄISCHE NORM

EN 50620

May 2017

ICS 29.060.20

In accordance with CENELEC/BT Decision D144/010, this consolidated version is purely informal and is intended to be used by the CENELEC National Committees only.

This document includes Amendment 1, approved by CENELEC on 2019-03-20.

The start and finish of text introduced or altered by amendment is indicated in the text by tags [A1] [A1].

English Version

Electric cables - Charging cables for electric vehicles
(BT(DE/NOT)259)

Câbles électriques - Câbles de charge pour véhicules
électriques
(BT(DE/NOT)259)

Kabel und Leitungen - Ladeleitung für Elektrofahrzeuge
(BT(DE/NOT)259)

This European Standard was approved by CENELEC on 2016-06-27. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

European foreword

This document (EN 50620:2017) has been prepared by CLC/TC 20, Electric cables.

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2017-11-12
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2020-05-12

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

A1 This document has been prepared under a mandate (M/511) given to CENELEC by the European Commission and the European Free Trade Association, and supports EU Regulation.

For the relationship with EU Regulation (2014/35/EU) see informative Annex ZZ, which is an integral part of this document.

Additional relevant Directives and Regulations may be applicable and impose supplementary requirements. **A1**

A1 Introduction

Following the outcome of the German Vilamoura Notification (BT/DE0259/NOT/CC) and the agreement of TC20 to carry out the work this document has been prepared to cover the subject by a European document.

This standard specifies requirements and tests for the cable component of charging cables between the electricity supply point or the charging station and the vehicle. The charging cables are applicable for charging modes 1 to 3 of EN 61851-1.

The EV charging cable is applicable to supply power and communication to an electrical vehicle and plug-in hybrid vehicle. A1
